## **Listing of Claims**

**Claims 1-16 (Cancelled)**

Claim 17 (new): A cosmetic method of treating human skin by delivering an estrogenic component to said skin, the method comprising applying to the skin a composition containing:

(i) at least 5  $\mu\text{g/g}$  of an estrogenic component selected from the group consisting of: substances represented by the following formula

in which formula  $R_1$ ,  $R_2$ ,  $R_3$ ,  $R_4$ , independently are a hydrogen atom, a hydroxyl group or an alkoxy group with 1-5 carbon atoms; each of  $R_5$ ,  $R_6$ ,  $R_7$  is a hydroxyl group; no more than 3 of  $R_1$ ,  $R_2$ ,  $R_3$ ,  $R_4$  are hydrogen atoms;

precursors capable of liberating a substance according to the aforementioned formula when used in the present method; and  
mixtures of one or more of the aforementioned substances and/or precursors; and  
(ii) a cosmetically acceptable vehicle.

Claim 18 (new): The method according to claim 17, wherein R<sub>3</sub> represents a hydroxyl group or an alkoxy group.

Claim 19 (new): The method according to claim 17, wherein at least 3 of the groups R<sub>1</sub>, R<sub>2</sub>, R<sub>3</sub>, and R<sub>4</sub> represent hydrogen atoms.

Claim 20 (new): The method according to claim 17, wherein the precursors are derivatives of the estrogenic substances wherein the hydrogen atom of at least one of the hydroxyl groups has been substituted by an acyl radical of a hydrocarbon carboxylic, sulfonic acid or sulfamic acid of 1-25 carbon atoms; tetrahydrofuranyl; tetrahydropyranal; or a straight or branched chain glycosydic residue containing 1-20 glycosidic units per residue.

Claim 21 (new): The cosmetic method according to claim 17, wherein the composition is applied in an effective amount to enhance proliferation of fibroblasts and/or epidermal skin cells.

Claim 22 (new): The cosmetic method according to claim 17, wherein the composition is applied in an effective amount to improve skin thickness and/or skin elasticity.

Claim 23 (new): The cosmetic method according to claim 17, wherein the composition is applied in an effective amount to improve or prevent the condition of wrinkled, lined, dry, flaky, aged or photodamaged skin.

Claim 24 (new): The cosmetic method according to claim 17, wherein the composition contains at least 10  $\mu$ g/g of the estrogenic component.

Claim 25 (new): The cosmetic method according to claim 17, wherein the composition is applied to facial skin or skin of the neck.

Claim 26 (new): The cosmetic method according to claim 17, wherein the composition is applied at least once a day during a period of at least 3 days.

Claim 27 (new): The cosmetic method according to claim 17, wherein virtually all of the composition that has been applied to the skin, is allowed to penetrate said skin.

Claim 28 (new): A method of treating or preventing vaginal dryness, wherein the method comprises applying to the vaginal epithelium a composition containing:

- (i) at least 5  $\mu\text{g/g}$  of said estrogenic component; and
- (ii) a cosmetically acceptable vehicle.

Claim 29 (new): A method of promoting wound healing, wherein the method comprises applying to the wounded tissue or to tissue in the vicinity of the wound a composition containing:

- (i) at least 5  $\mu\text{g/g}$  of said estrogenic component; and
- (ii) a cosmetically acceptable vehicle.

Claim 30 (new): A method of treating or preventing acne, wherein the method comprises applying to the skin that is affected by acne or that is at risk of being affected by acne a composition containing:

- (i) at least 5  $\mu\text{g/g}$  of said estrogenic component; and
- (ii) a cosmetically acceptable vehicle.

Claim 31 (new): A skin care composition for topical administration containing:

- (i) at least 5  $\mu\text{g/g}$  of an estrogenic component as defined in claim 17; and
- (ii) a cosmetically acceptable vehicle.
